Senior Inspector (Supervisor) (Full time)

Advertisement:
We are looking for an experienced Quality Inspector to boost our Inspection Team. Ideally we are looking for someone with both PCBA and Final Assembly experience backed up with IPC knowledge. The team is currently managed day to day by our Quality Manager. Having satisfied us that your inspection skills are what we need, we will also be looking for your potential to be the QC Supervisor either immediately or in the future.

You will report to the QA/IT Manager

The hours are:
Mon - Thu 08:00 to 16:30 with half hour lunch
Fri 08:00 to 13:00 no lunch

The pay is between £20,000 and £25,000 depending on experience.
This is a "Full" overtime position. Therefore:
Overtime at x 1.3 (Week days and Sat am), x1.5 (Sat pm) and x2 (Sunday)

Overview:
This is a new position within Speedboard. The complexity and standard of work we now produce has risen. This includes high tech PCBAs for aerospace that must comply with IPC Class 3 and complex final assembly work that includes cables, electro-mechanical assembly and test.

Consequently we need a Senior Inspector who can demonstrate experience and knowledge of inspection within the electronics industry to the highest level (IPC Class 3) in Final Assembly and PCBA.

As mentioned, for the right candidate there is scope to make this position a supervisory role. In which case you would lead our inspection team, ensure all our inspectors are working to the correct standards, be able to train and motivate the inspectors and be certain that we have completed all the necessary stages of production before releasing assemblies to our customers.

You will be required to attend and pass IPC and/or supervisory training if needed. We will also look at a candidate's ability to fulfil the supervisory role in the future if the experience and skills are not what we need as of today. i.e. for the right person you will start as Senior Inspector and grow into the role of QC Supervisor over time with training.

Goods in only carry out basic order checking. Any drawn parts needing inspection also comes under the responsibility of the inspection team. Therefore, supplier quality is also part of the role.

The ideal candidate:
The person most likely to be offered this role will have previous experience / qualifications in:
(in no particular order)

- Good grasp of English Language (GCSE Grade B or equivalent)
- Be able to demonstrate your attention to detail
- IPC 610 – Class 2 and 3
- Experience of high tech PCBA assemblies – ideally aerospace or automotive
- Experience of electro mechanical assembly
- Experience of cable assembly (IPC 620)
- The capability to teach others
- The potential or capability to supervise others
- The gravitas to command respect and be heard
- Good computer skills. Word and Excel.
