

Conflict Minerals

V2. August 2017

Dear Speedboard Customer,

Thank you for your inquiry requesting information regarding Conflict Mineral content within assemblies we manufacture on your behalf.

Although we are not required to report to the Securities and Exchange Commission (SEC), we are assisting our customers to the best of our ability such that they can report to their customers or the SEC as appropriate for their products.

As a contract manufacturer it is not possible for us to control, via distribution, all of the individual component manufactures you may specify in your bills of material. It is also not possible for us to obtain declarations from each and every manufacturer as distributors are not supporting this process.

However, as your manufacturer we are responsible for the soldering process and what solders we use. Therefore, attached to this letter is the latest declaration issued by Alpha Metals for all solders we use within our factory.

We trust this information meets with your approval.

Yours sincerely,

Neil Owen
Managing Director
